

Richard hails from Tulsa. He has earned degrees from the University of Oklahoma and Stanford. (Go Sooners and Cardinal!) Before starting Pied Piper, he worked for Hooli as a part time software developer. While his work focuses on applied information theory, mostly optimizing lossless compression schema of both the length-limited and adaptive variants, his non-work interests range widely, everything from quantum computing to chaos theory. He could tell you about it, but THAT would NOT be a “length-limited” conversation! Richard is the Founder of Pied Piper, and after a brief hiatus, is once again CEO.

---

### Core Technical Competencies

---

#### Web Development

HTML  
CSS  
Javascript

#### Compression

Mpeg  
MP4  
GIF

---

### Professional Work Experience

---

#### CEO/President – Pied Piper

2013 – 2015 1 year

Pied Piper is a multi-platform technology based on a proprietary universal compression algorithm that has consistently fielded high Weisman Scores™ that are not merely competitive, but approach the theoretical limit of lossless compression.

- Build an algorithm for artist to detect if their music was violating copy right infringement laws
  - Successfully won Techcrunch Disrupt
  - Optimized an algorithm that holds the current world record for Weisman Scores
- 

### Education

---

#### University of Oklahoma

2011 – 2014 2.5 years

Information Technology  
Bachelor

- DB1101 - Basic SQL
  - CS2011 - Java Introduction
- 

### Awards

---

#### Digital Compression Pioneer Award

2014

Techcrunch

There is no spoon.

---

### Publications

---

#### Video compression for 3d media

2014

[en.wikipedia.org/wiki/Silicon\\_Valley\\_\(TV\\_series\)](https://en.wikipedia.org/wiki/Silicon_Valley_(TV_series))

Innovative middle-out compression algorithm that changes the way we store data.
