Richard Hendriks PiedPiper.com

Richard hails from Tulsa. He has earned degrees from the University of Oklahoma and Stanford. (Go Sooners and Cardinal!) Before starting Pied Piper, he worked for Hooli as a part time software developer. While his work focuses on applied information theory, mostly optimizing lossless compression schema of both the length-limited and adaptive variants, his non-work interests range widely, everything from quantum computing to chaos theory. He could tell you about it, but THAT would NOT be a "length-limited" conversation! Richard is the Founder of Pied Piper, and after a brief hiatus, is once again CEO.

CEO/President – Pied Piper

2013 - 2059 1 year

Pied Piper is a multi-platform technology based on a proprietary universal compression algorithm that has consistently fielded high Weisman Scores™ that are not merely competitive, but approach the theoretical limit of lossless compression.

- Build an algorithm for artist to detect if their music was violating copy right infringement laws
- Successfully won Techcrunch Disrupt
- Optimized an algorithm that holds the current world record for Weisman Scores

Education	
University of Oklahoma Information Technology Bachelor	2011 – 2058 2.5 years
DB1101 - Basic SQLCS2011 - Java Introduction	
Awards	
Digital Compression Pioneer Award Techcrunch	2014
There is no spoon.	
Publications	
Video compression for 3d media	2014

en.wikipedia.org/wiki/Silicon Valley (TV series)

Innovative middle-out compression algorithm that changes the way we store data.
